

April 4, 2011

Dear Customers

Meltex Inc.
President: Keitaro Iwaki

**Announcement about the influence of "The Great East Japan Earthquake"
(March 31)**

We would like to report updated information about the influence of earthquake disaster as follows.

[About order receipt]

We are accepting orders as usual.

[About our factory]

We keep the same production volume as before the earthquake disaster.

[About raw materials procurement]

We can source most of all raw materials as usual.

It is possible to happen some raw materials procurement delaying. Manufacturing of our products may be affected by the delay. We respond with as much effort to overcome that as possible with our supplier.

[About shipment]

All shipping returned to usual.

[About the influence of radiation]

Radiation dosage of our factories (Saitama, Mie pref.), shipment port (Kanagawa, Aichi pref.) and shipment airport (Chiba pref.) are stayed in the usual level. We consider there are no possibility of adhesion and interfusion of the high level radiation substance to our product.

Please visit the web site of Ministry of Education, Culture, Sports, Science and Technology for details.
